

Power to the Alarm Dealer

## I. OUR COMPANY

We are a Connectivity Solutions company, founded in Montreal, Canada.

NBG Telecom was created to serve the alarm industry and alarm companies.

We do not compete with you, the Alarm Dealer, in any way – guaranteed.

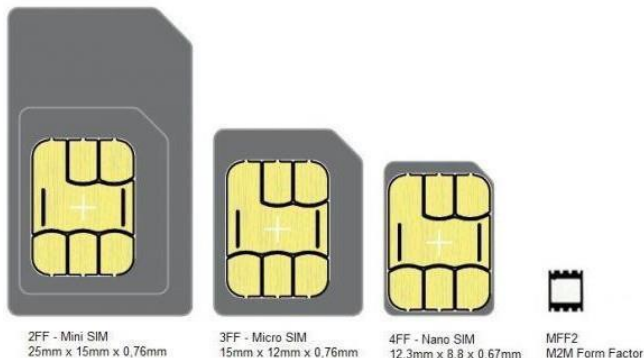

Leaving all installations to you and providing the tools necessary to compete against big telecom.

**Power to the alarm dealer.**

### **Welcome to NBG Telecom.**

NBG Telecom has partnered with A.P.A. to provide our SIM cards with the Paradox PCS module.

The 4FF or “Nano” is the one you will be buying from A.P.A. and the one to use for the PCS.  
This refers to the size of the SIM card.

- 1) When you are ready for activation, you must visit [www.NBGTele.com](http://www.NBGTele.com) and login.
- 2) After you log in, click on “SIM Card Plans.”
- 3) You must now select the 10MB or the 50MB plan
- 4) Then you enter the 19-digit SIM card number.
- 5) You may also enter something in the “Reference” box, so you remember which customer it is.
- 6) Activation takes 5 to 25 minutes.
- 7) You can now plug the card into the PCS module in the SIM 1 slot.
- 8) Connect the PCS to the Serial port of the panel.
- 9) In programming, go to section 921 for MG/SP or section 2960 for EVO
- 10) Change APN address to: Convergia1.com

For any questions, please call 1-833-624-8353  
(1-833-NBG-TELE)
