

Aaron Max Fish

September 14, 1932 – October 1, 2020

Peacefully in his home, in the early morning of Thursday, October 1, 2020.

From humble beginnings delivering key blanks by bicycle at the age of seventeen, to the development of the 'Push Button Lock' and the incredible success of the multinational Unican Security Systems, Aaron Fish was a dedicated visionary who remained proud of and loyal to his many employees and colleagues.

On behalf of the entire APA family, we wish to express our deepest condolences to a pillar of our industry. He will be missed!

Farewell my friend,

Claude Desrochers
